Dan, a couple of thoughts for additions to your slides:

Nonresponsive

Oregon – might want to mention CWA lawsuits or  
Nonresponsive

Nonresponsive

CZARA; Nonresponsive

All –

Please find attached the overview presentation I'm tuning up for lunchtime next Wednesday.

I have sent this to the Ops Directors for their feedback, but I'd also like input from each of you in particular on the state-specific "challenges and opportunities." I am going to revise these slides to be water-centric, with somewhere in the neighborhood of 5 – 8 bullets. I'm also thinking that maybe a cross-cutting (not state-specific slide) on regional opportunities and challenges in the water world might be appropriate to give a fuller complexion of the issues we face, so I'd appreciate your thoughts on that concept and any specific fodder, as well. Please give me your ideas by the end of this week; I'll try to revise the presentation Monday.

Thanks in advance. DanO.
